

Emergency Lockdown/Unlock

With the push of a button, lockdown all associated doors of campus or your assets

GeoVision Access Control System's Lockdown and unlock feature help isolating threats and violent incidents. It seamlessly integrates with GeoVision video surveillance to provide video recording for every access event.

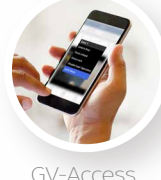

This feature allows users to quickly lockdown or unlock associated doors in the event of emergencies to ensure personnel are protected from external threat.

Application Scenarios

Lockdown button
Combined with
GV-IOBox integration

GV-Access

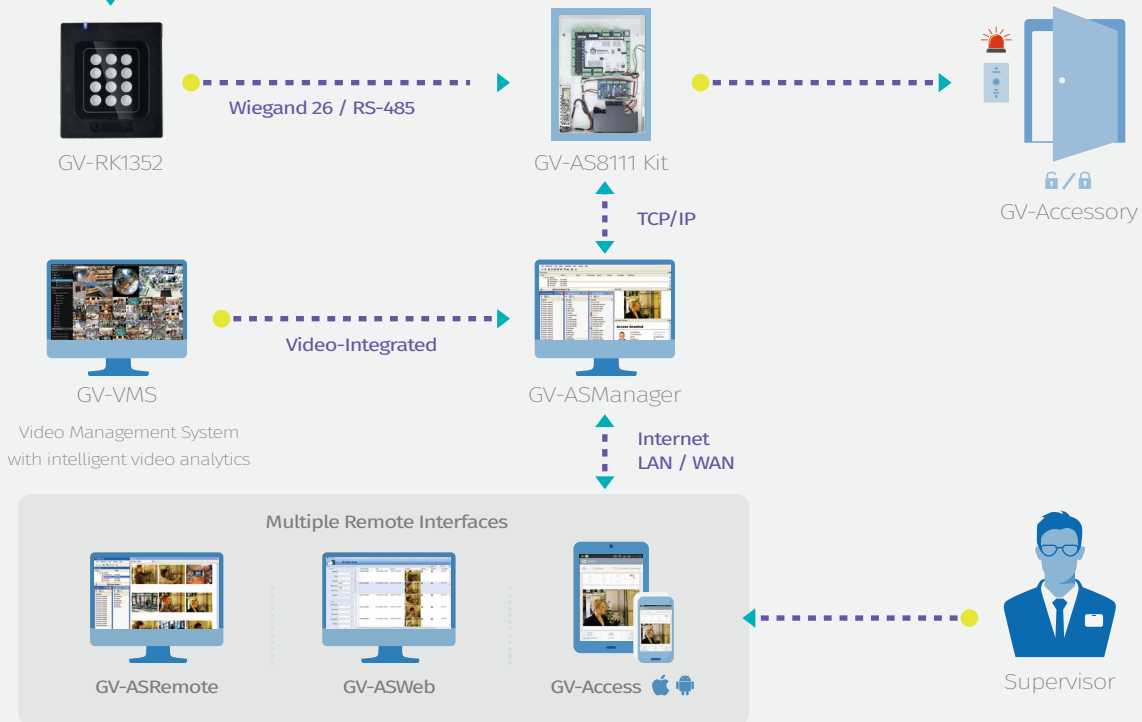

Central Management

Education • Bank • Enterprise • Residential
Retail • Hospitality • Manufacturing • Transportation

How It Works

Access Control Management System

GV-ASManager

Installed in local PC,
